June 2010

Interactive Internet Guideline Changes Effective 7.1.10

Minnesota Statute Chapter 45

[45.306] CONTINUING EDUCATION COURSES OFFERED OVER THE INTERNET.

Subdivision 1. Appraiser Internet continuing education courses. The design and delivery of an appraiser continuing education course must be approved by the International Distance Education Certification Center (IDECC) before the course is submitted for the commissioner's approval.

Subd. 2. Interactive Internet course requirements.

An interactive Internet continuing education course must:

- (1) specify the minimum system requirements;
- (2) provide encryption that ensures that all personal information, including the student's name, address, and credit card number, cannot be read as it passes across the Internet;
- (3) include technology to guarantee seat time; (*See clarification below.)**
- (4) include a high level of interactivity;
- (5) include graphics that reinforce the content;
- (6) include the ability for the student to contact an instructor within a reasonable amount of time;
- (7) include the ability for the student to get technical support within a reasonable amount of time;
- (8) include a statement that the student's information will not be sold or distributed to any third party without prior written consent of the student. Taking the course does not constitute consent;
- (9) be available 24 hours a day, seven days a week, excluding minimal down time for updating and administration, except that this provision does not apply to live courses taught by an actual instructor and delivered over the Internet;
- (10) provide viewing access to the online course at all times to the commissioner, excluding minimal down time for updating and administration;
- (11) include a process to authenticate the student's identity;
- (12) inform the student and the commissioner how long after its purchase a course will be accessible;
- (13) inform the student that license education credit will not be awarded for taking the course after it loses its status as an approved course;
- (14) provide clear instructions on how to navigate through the course;
- (15) provide automatic bookmarking at any point in the course;
- (16) provide questions after each unit or chapter that must be answered before the student can proceed to the next unit or chapter;
- (17) include a reinforcement response when a quiz question is answered correctly;
- (18) include a response when a quiz question is answered incorrectly;
- (19) include a final examination;
- (20) allow the student to go back and review any unit at any time, except during the final examination;
- (21) provide a course evaluation at the end of the course. 10.1 At a minimum, the evaluation must ask the student to report any difficulties caused by the online education delivery method; and
- (22) provide a completion certificate when the course and exam have been completed and the provider has verified the completion. Electronic certificates are sufficient.

Subd. 3. Final examination. The final examination must be either an encrypted online examination or a paper examination that is monitored by a proctor who certifies that the student took the examination. The student must not be allowed to review the course content once the examination has begun.

***45.306 Subd2. (3)** While seat time is a definite requirement and you must include technology to guarantee it, this does not mean that to accomplish it, a licensee should be sitting in front of a computer waiting for X number of hours to pass. The course itself must contain the right amount of interactive instruction content to take the same X number of hours, or more, as requested by the provider. If a provider is asking for 2 hours of credit, that course must take a licensee 2 hours, or more, of interactive learning to complete. This also means that your course must have the technology to time out (automatically log out) if a licensee leaves the computer inactive for more than ten minutes so that they cannot log in and then walk away from the computer for the 2 hours and receive credit.
